3. Assembly

- Align the Top Shell with Rnd 4 (back loops) of the Underside piece, keeping the limbs on the exterior.
- Using Green yarn, single crochet or whipstitch through the 24 remaining loops of the shell and underside, working behind the limbs.
- Stuff firmly with fiberfill before closing the last 6 stitches.
- Attach a key ring to the center top of the shell.

Novality Troubleshooting Tips & Tricks

- Limb Misalignment:** If the head or flippers twist to one side, check your stitch count on Rnd 4 of the underside. Shift the starting stitch of Rnd 5 by 1 stitch forward or backward to correct alignment.
- Gaps Around Limbs:** When crocheting shell and underside together, insert your needle/hook through both yarn loops of the inner wall behind each limb to ensure no fiberfill leaks out.
